---

## PROFESSIONAL SUMMARY

---

Results-oriented AI & Data Science engineering student with hands-on experience in data analysis, ETL pipeline development, and business intelligence at Eli Lilly and Company. Proven ability to translate business requirements into analytical solutions, communicate data-driven insights to cross-functional stakeholders, and document workflows that support organizational decision-making. Adept at SQL, Python, Power BI, and Tableau; equipped with structured thinking and collaborative skills essential for a Business Analyst role.

## INTERNSHIP EXPERIENCE

---

**Data Engineering Intern (Business Analyst Responsibilities)** | [Eli Lilly and Company](#) Jan 2026 – Jul 2026 | Onsite

- **Requirement Gathering & Stakeholder Management:**

Engaged with cross-functional business and engineering teams to elicit, document, and validate data requirements. Translated ambiguous business needs into clear technical specifications, bridging the gap between business stakeholders and engineering teams.

- **Business Process Analysis:**

Mapped and analyzed existing data workflows across enterprise datasets. Identified bottlenecks and gaps in data quality, proposed process improvements, and implemented solutions that improved data accuracy and reporting consistency.

- **Data Analysis & Reporting:**

Built end-to-end analytics workflows by processing and aggregating structured datasets to generate actionable business insights. Created reports aligned with organizational KPIs, enabling data-driven decision-making for stakeholders.

- **ETL & Data Pipeline Design:**

Designed and implemented data pipelines following Medallion Architecture (Bronze, Silver, Gold layers). Performed data cleaning, validation, and preprocessing using Python (Pandas, NumPy) and SQL, ensuring data readiness for BI reporting.

- **Documentation & Process Mapping:**

Documented data flows, business rules, and pipeline logic to maintain institutional knowledge and support audit trails. Produced clear, stakeholder-ready reports summarizing data quality findings and recommended actions.

## PROJECTS

---

**Business Intelligence Reporting — Analytics Workflow** | [Eli Lilly and Company](#) Jan 2026 – Jul 2026

- Designed and executed analytics workflows on structured enterprise datasets, producing reports aligned with organizational KPIs, directly supporting stakeholder reporting cycles.
- Performed data validation and gap analysis across multiple data sources; documented findings and presented recommendations to technical and non-technical audiences.

**Spring Boot CRUD REST API with MySQL** | [GeeksforGeeks Bootcamp](#)

- Architected a production-style REST API with full CRUD operations, demonstrating ability to understand system design, data flow, and integration requirements from an analyst perspective.
- Documented API endpoints and data contracts, simulating the kind of functional specification documents a Business Analyst produces for development teams.

**Food Delivery System** | [Academic Mini Project](#)

- Analyzed and modeled the end-to-end order lifecycle for a food delivery application; defined user stories, workflows, and system requirements before implementation.
- Mapped business processes into technical specifications, demonstrating core BA competency in translating user needs into structured requirements.

## SKILLS

---

- **Business Analysis:** Requirements Elicitation, Process Mapping, Gap Analysis, Stakeholder Communication, KPI Reporting, BRD/FRD Documentation
- **Data & Analytics:** SQL (Intermediate), Python — Pandas, NumPy (Intermediate), ETL Pipelines, Data Validation, Data Cleaning, Medallion Architecture
- **BI & Reporting Tools:** Power BI, Tableau, Microsoft Excel (Intermediate)
- **Programming & Dev:** Java (Beginner), HTML, CSS, JavaScript, Spring Boot REST APIs
- **Collaboration & Tools:** Git, Postman, Cross-functional Team Collaboration, Microsoft Word
- **Core Concepts:** Structured Data Handling, Data Warehousing, Database Operations, Machine Learning Basics

## EDUCATION

---

**B.E. — Artificial Intelligence & Data Science | CGPA: 8.66 |** [GSSS Institute of Engineering and Technology for Women](#) 2022 – 2026 | Mysuru, Karnataka

**Pre-University (Intermediate) | 85.8% |** [Vijaya Vittala Composite PU College](#) 2022 | Mysuru, Karnataka

**SSLC | 92.8% |** [Chaitra High School and PU College](#) 2020 | Mysuru, Karnataka

## CERTIFICATIONS & TRAINING

---

- Databricks Fundamentals — Databricks Academy (2026): Lakehouse Platform, Delta Lake, Apache Spark, and Data Engineering Workflows.
- Java Programming — Great Learning (Apr – May 2024): OOP principles and backend application development.
- Web Development — Infosys Springboard (Jun – Jul 2024): Responsive design, UI best practices, and JavaScript frameworks.

## ACHIEVEMENTS

---

- Finalist, AWS Generative AI Ideathon (Jan 2025): Developed an AI-powered solution leveraging Amazon Bedrock and PartyRock on a real-world problem statement, competing at a national level among student innovators.

## LANGUAGES

---

English — Full Professional Proficiency | Kannada — Full Professional Proficiency | Hindi — Professional Working Proficiency
