Mysuru, Karnataka | +91 8277939391 | sheetalmv14@gmail.com | linkedin.com/in/sheetal-m-v

PROFESSIONAL SUMMARY

Motivated and detail-oriented AI & Data Science engineering student with good knowledge in data analysis, programming, and problem-solving. Experienced in working with structured data, building analytical workflows, and collaborating with teams to deliver meaningful insights. Passionate about leveraging technology to solve real-world challenges and continuously expanding technical skills. Eager to contribute to dynamic teams in data-focused roles and grow as a professional in the technology industry.

INTERNSHIP EXPERIENCE

Eli Lilly and Company

Data Engineering Intern | Onsite | Jan 2026 – Jul 2026

- Designed and implemented data workflows following Medallion Architecture (Bronze, Silver, Gold layers) and built ETL pipelines for extracting, transforming, and loading structured datasets, ensuring data readiness for reporting and business intelligence.
- Performed data cleaning, validation, and preprocessing using Python (Pandas, NumPy) and SQL, enhancing data quality, consistency, and accuracy across enterprise datasets.
- Created reporting and analytics workflows by processing and aggregating structured datasets, delivering actionable business insights aligned with organizational KPIs and stakeholder requirements.
- Collaborated with cross-functional business and engineering teams to translate requirements into data engineering solutions, supporting data-driven decision-making processes across departments.

PROJECTS

Spring Boot CRUD REST API with MySQL

GeeksforGeeks Bootcamp

- Architected a production-style REST API with full CRUD operations using Spring Boot, MySQL, and JPA, implementing a layered Controller–Service–Repository pattern for maintainability and scalability.
- Validated all API endpoints using Postman, ensuring robust data flow, consistent error handling, and API reliability across the service layer.

Food Delivery System

Academic Mini Project

- Developed a fully functional food delivery application with real-world features including order lifecycle management and user workflows, demonstrating end-to-end software delivery skills.

TECHNICAL SKILLS

Data Engineering & Analytics: ETL Pipelines, Medallion Architecture (Bronze/Silver/Gold), Data Transformation, Data Validation, Data Cleaning, Data Warehousing, Data Processing, Analytics Workflows, Power BI, Tableau

Programming & Query Languages: Python (Pandas, NumPy) — Intermediate, SQL — Intermediate, C — Intermediate, Java — Beginner

Web & Application Development: HTML, CSS, JavaScript, Spring Boot (REST APIs), Postman

Tools & Platforms: Microsoft Excel (Intermediate), Git (Basic), Cloud/Data Platform Exposure, Microsoft Word

Core Concepts: Machine Learning Basics, Structured Data Handling, Database Operations, Data Pipeline Design

Soft Skills: Cross-functional Collaboration, Analytical Thinking, Communication, Adaptability, Problem Solving

EDUCATION

GSSS Institute of Engineering and Technology for Women

Mysuru, Karnataka

B.E. — Artificial Intelligence & Data Science | CGPA: 8.66 | 2022 – 2026

Vijaya Vittala Composite PU College

Mysuru, Karnataka

Pre-University (Intermediate) | 85.8% | 2022

Chaitra High School and PU College

Mysuru, Karnataka

SSLC | 92.8% | 2020

CERTIFICATIONS & TRAINING

Java Programming — Great Learning

Apr – May 2024 | Remote

Strengthened core Java programming skills through project-based assignments covering OOP principles and backend application development.

Web Development — Infosys Springboard

Jun – Jul 2024 | Remote

Completed front-end development training covering responsive design, UI best practices, and built a dynamic web application using JavaScript frameworks.

Databricks Fundamentals — Databricks Academy

2026 | Remote

Earned Databricks Fundamentals accreditation covering core concepts of the Databricks Lakehouse Platform, Delta Lake, Apache Spark fundamentals, and data engineering workflows — aligned with the Databricks Certified Associate Data Engineer path.

ACHIEVEMENTS

- Finalist, AWS Generative AI Ideathon (Jan 2025): Developed an AI-powered solution leveraging Amazon Bedrock and PartyRock on a real-world problem statement, competing at a national level among student innovators.

LANGUAGES

English — Full Professional Proficiency | Kannada — Full Professional Proficiency | Hindi — Professional Working Proficiency
